

Cityscapes Greensettle seminar

Joensuu, 11th of May 2012

NorTech Oulu, University of Oulu, together with the other project partners of the Greensettle project, organizes a seminar on "Cityscapes", which is held in Joensuu on 11th of May (Eastern Finland Regional State Administrative Agency office in Joensuu, Torikatu 36 C). The purpose of this daylong event is to present the latest trends and developments of city planning in Finland and in Russia, and to find out how best practices on this field can be exchanged and disseminated. Design of ecofriendly cities is very high on the agenda in the current city planning, and examples from the cities of Joensuu, Kajaani and Oulu are presented during the seminar.

The event is open for everyone interested and involved in city planning, but the attendance is limited. The language of the event is English. Registrations are accepted by e-mail at nortech@oulu.fi by 9th of May. More information about the project is available at <http://nortech.oulu.fi/GREENSETTLE/>. See you in Joensuu!

This project is co-funded by the European Union,
the Russian Federation and the Republic of Finland
